

MISSOURI DEPARTMENT OF NATURAL RESOURCES
MISSOURI BROWNFIELDS COMPETITIVE ASSESSMENT PROGRAM
ASSESSMENT SUB-GRANT BUDGET SHEET

Complete this form when applying for a Hazardous Substance Assessment Sub-Grant or a Petroleum Assessment Sub-Grant. In order to ensure equitable distribution of funds, a community may receive no more than \$30,000 through the Missouri Brownfields Competitive Assessment Program per funding round. Although applicants may apply for assessment funds for multiple, contiguous properties that are part of the same redevelopment plan, limitations on available funding and funding distribution may result in only partial funding for some applications.

HOW MANY PROPERTIES ARE INCLUDED ON THIS APPLICATION?

In the budget table below, list properties in order of funding priority. Begin with the highest priority property at the top and end with the lowest priority property. Provide dollar amounts indicating your grant request for Phase I and/or Phase II Environmental Assessments at each property.

PROPERTY NAME AND ADDRESS	PHASE I ASSESSMENT	PHASE II ASSESSMENT	TOTAL PER PROPERTY
		TOTAL AMOUNT REQUESTED	

In an attachment, provide a one-page budget description justifying the basis for the funds in the table. Label this “Attachment #3”. If a grant is awarded, sub-grant recipients will be required to adhere to procurement standards in the applicable OMB circulars.

I certify that the information contained above and in Attachment #3 is correct to the best of my knowledge.
